Men Of Many Trades Of Numerous Skills Make Up Air Force

In the British Commonwealth Air Training Plan, it is estimated that one in ten airmen, forming the complement of a "flight", can be classed as pilots, Organization and administration, repair and inspection of aircraft and equipment, aeronautical development and a multitude of other duties absorb the services of many men vital to the actual flying operations.

Hence a wide variety of occupations and trades will be incorporated into the Air Force. Qualifications for some of these illustrate the highly specialized nature of the work. Aero engine mechanics, with a thorough knowledge of internal combustion engines and familiar with the methods of fitting bearings, piston and piston rings, valve grinding and engine timing, are required to keep the equipment in top shape. Then there are armament artificers. These must be capable of overhauling, repairing and testing rifles, machine guns, bombs, armament and other equipment used. The armament artificer should as well, have a working knowledge of explosives and understand the use of metal working machinery.

Cooks must have not only a thorough knowledge of cooking, but also of meat cutting, storage of perishables and defrosting of meats and fish.

Men taken on as clerks must be capable of taking dictation at the rate of 75 words per minute and to type at a rate of 40 words per minute. They must be familiar with filing systems and general accounting.

The term disciplinarian has been applied to men who will have charge of the physical training of recruits. They must be competent in the instruction and supervision of physical training classes, have a knowledge of military drill be proficient in fencing boxing and gymnastics and be ready to take on coaching duties in various forms of athletics.

Electricians in the Air Force are expected to have a working knowledge of motors, generators and batteries and a practical knowledge of materials used in the trade. The electrician must be able to diagnose faults in circuits and electrical apparatus, and read wiring diagrams.

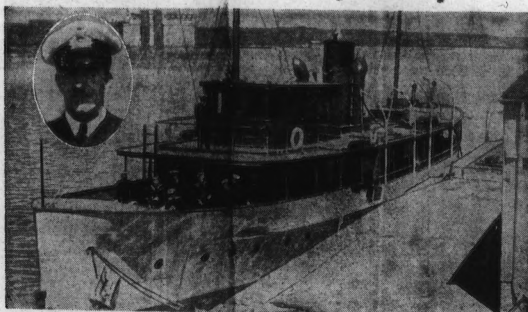

The fabric worker must be familiar with cutting, machining and fitting of fabric to aircraft, be capable to sewing by hand and of applying all types of paints, dopes and varnishes.

A knowledge of the heat treatment of tools, springs and instrument parts is a necessary qualification for instrument repairers. They must know the physical properties of materials used in instruments, be able to read working drawings, have a knowledge of electricity, magnetism, general physics and mechanics.

The machinist must know machine shop practice, be proficient in the handling of lathes, milling

Yacht Presented to Defence Department.

A naval crew has arrived at Midland from Halifax to take command of the yacht "Ambler," which was presented as a gift to the Department of National Defence by the owner, Charles H. Shepard, of Waukegan, Ill. Mr. Shepard offered his magnificent pleasure boat to the Canadian Government immediately after war was declared last fall. The offer was accepted and the ship was put in commission at Waukegan and brought to Midland by the former crew. The "Ambler" is in excellent condition, much better than I had anticipated," stated Lieut. R. Kelly, R.C.N.R. in command of the vessel. The yacht is of all-steel construction, has twin diesel engines and has a cruising speed of 24 miles per hour and if necessary the boat can attain 16 m.p.h. She is 129 feet long, and has a 23-foot beam. The "Ambler" will be provided with additional equipment and may be used for patrol service. She is manned by a crew of 25. The yacht will leave in a few days for Quebec. One of the crew, A. Ballis, petty officer, of Montreal, had not been immediately accepted for service. He fought in the Boer War, and has three sons in the present conflict, one in the Highlanders, another with the Tans and a third in the Royal Air Force.

Atlas Lumber Co. Will Build New Shed

The Atlas Lumber Company will commence shortly to build a new modern lumber shed, located immediately south of the Crossfield Garage. The building will be 80 feet long by 60 feet wide with the entire floor of cement. The front, which will face the east, will be finished in stucco. The new structure is to be built over the present office so that, when completed, the office will remain as it is and be in the southeast corner.

The present shed will be vacated and offered for sale as soon as the new one is ready for occupation. The Atlas Lumber Company has been located here for many years, and have contributed generously to the upbuilding of the community.

Local Red Cross Commended

The local Branch of the Red Cross have received a letter of acknowledgment from the Provincial Chairman of Women's War Work Committee in connection with the shipment of work recently sent them. This is what the letter has to say: "The Refugee garments were quite the finest we have yet received from any Branch. Will you please thank your workers not only for their splendid sewing, but for the pains they have taken to make these articles attractive."

Relatives and friends arriving in town for the funeral of Mrs. Amery include Mrs. Thomas Amery and Fred Y. Amery of Walla Walla, Wash., Mrs. McDonald of Puluah, Wash., John Gray of Washburn, Wash., and Mrs. Arthur Halliday of Edmonton, and Mrs. P. C. McCrae of New Westminster, B. C.

Grades 11 and 12 of the local High School have taken to potato farming, and are busy getting their land in the south-west corner of town, ready for planting.

LOCALS

Art Baker, of the Bank of Commerce staff, is enjoying holidays.

Miss Gladys Billings of Calgary has accepted a position in the Oliver Cafe.

Wickets at the Post Office will be open from 10 to 11 A.M. only on Friday, May 24.

Harold Mair left last Saturday for Banff, where he has accepted a position for the summer months.

Rev. Stanley R. Hunt was a visitor in Strathmore on Sunday, taking the service in the United Church there.

Major G. Wannop and Miss Margaret Fitzpatrick R.N., of Westaskin, were Sunday visitors at the home of the latter's parents here.

Miss Kathleen Mair, daughter of Mr. and Mrs. T. M. Mair, who underwent an operation for appendicitis a week ago Monday is making splendid progress toward recovery and is expected home today.

The C.P.R. have fenced their property on the east side of the track. This is going to make it inconvenient for several places across the tracks, particularly the Gilchrist Service Station, residence and oil warehouses.

HON. R. J. MANION, WHO RESIGNED THE LEADERSHIP OF THE CONSERVATIVE PARTY ON MONDAY.

Miss Gough's Class Entertained Mothers

On Friday afternoon in the church parlor, the pupils of Room 1 of the public school presented their mothers with a great treat for "Mother's Day".

Miss Gough, before commencing, told the mothers of the value of child speaking, showing how practice now might help to produce a great orator.

The "Hansel and Gretel" operetta was very well done, starring Betty Huston and Ralph Bills. The Choral Speaking was rendered with great expression.

After serving tea, some 50 mothers and friends were served with a lovely lunch by the pupils.

Great credit is due Miss Gough for her interest in junior life.

A rather unique feature of the "Mother's Day" service which was held at the United Church on Sunday last, was the presentation of a bouquet of roses to the oldest mother in the congregation, Mrs. M. Laul. The bouquet was presented by her great-grandson, Master Willard Smith on behalf of the Ladies' Aid.

Mr. H. B. Cragg of Calgary, lead the service in the absence of the pastor who was taking part in the evening service at Strathmore. The choir sang the anthem "Sun of My Soul". Mrs. Fleming sang "That Wonderful Mother of Mine" and Mrs. Pullan and Mrs. Ballam sang their appreciated duet from the cantata "The Galilean".

The large congregation in attendance will never forget the vivid portrayal of the story, "The Leper" as dramatized by the Calgary Church Players under the direction of Mrs. Waller. Each member gave a faithful, living impersonation of characters grouped about the Man of Nazareth.

A number of interested parents met with the scholars of the Sunday School on a Sunday morning, looking in on the work which is capably carried on by the staff.

Very Beloved Resident Passes From Our Midst

The residents of Crossfield and District were silent with grief when on Tuesday morning, May 14, word was received that Mrs. Rowland Amery had passed away at her home. Although Mrs. Amery's condition had been critical for some time, the news of her death was a shock to the community, as she had mingled with them until the last few weeks, when she was confined to her home.

Mrs. Amery was born in Crystal, N. Dakota. She joined the Methodist Church at the age of fourteen years and was educated in the States, having taught school in the city of Jamestown for 3 years. After taking a business course in St. Paul she came West to her parents in Crossfield and later was placed on the staff of the Canadian Bank of Commerce.

In the December of 1918 she married Rowland Amery and with the exception of a year in Walla Walla, Washington, has resided in Crossfield—a period of 25 years.

Mrs. Amery was ever present in all social activities, her great talent at the piano made her a general favorite with the music lovers and she gave freely of her time and talent. She served the Ladies' Aid faithfully, being a very willing worker. Her wonderful vitality, quick smile, ready sympathy and lastly her dauntless courage will be forever an inspiration to those who knew and loved her.

She leaves to mourn her loss, her husband and two children, Billy and Arlene; her mother, Mrs. Halliday; her brother, Howard Halliday of Didsbury; her sister, Mrs. P. C. McCrae of New Westminster.

The funeral service will be held in the United Church on Friday afternoon at two o'clock. Interment will take place in Crossfield cemetery.

A sorrowing Crossfield offers deep sympathy to the bereaved family.

To "Glad"

And all these months we knew that you must go;

That God had placed his hand upon your brow;

Yet numbered with tears of grief are we who know

He opened the pearly gates that you might enter now.

We'll feel your presence ever near to us

In all our earnest work, our play and pain

We'll strive, like you, to keep our heads held high,

And realize our loss is Heaven's own gain.

— A Pal.

Miss Phyllis Kukurski of Calgary will speak on "Poland", in the United Church on Wednesday May 22, at 8:15 p.m., under auspices of the C.G.I.T. This should prove of particular interest, as Miss Kukurski arrived home from Poland just two weeks before the German invasion. A silver collection will be taken.

Thursday May 16th 1940

The Village Council and the Board of Trade have just received a shipment of trees, two or three varieties. These will be planted on streets that have not sufficient trees at the present time. At some future date these trees with the proper care will add considerably to the appearance of the town. Crossfield has some lovely homes for a small town; and the citizens are continually making improvements, with flowers, trees and shrubs. The evergreen trees predominate along the streets, unfortunately some of them were planted too close together and the beauty of the tree has been destroyed. Improvement around the home is always time and money well spent, it adds beauty and convenience to the owner, and reflects the desired impression that someone really lives there.

Leaders of Western Canadian and United States governments, including premiers, lieutenant-governors and governors, will join with the two major railroad presidents and others in the opening ceremonies in connection with the Jasper-Banff mountain skyway. Announcement was made by J. A. McNeil, secretary of the Alberta Motor Association, this week. Officials of the federal travel bureau will play important parts in the ceremonies, which will attract visitors from all over North America. Governors of Washington, Idaho, California, Nevada, Montana, Wyoming, New Mexico, Utah, Colorado, Texas, Oklahoma, Kansas, Nebraska, South and North Dakota have been invited. A special invitation has been extended to Rt. Hon. R. B. Bennett, now resident in Surrey, England. It was during Mr. Bennett's administrative term that legislation resulting in the start of operations was passed.

Covering 140 miles of mountain territory, the new highway will be without equal anywhere in the world. It is anticipated that this attraction alone will create a new and much growing branch of the tourist business which Canada needs so vitally at the present time. Enterprising concerns are already establishing bungalow camps along the route, and from many villages, towns and cities come word of special courtesy measures to be practised by all who come in contact with tourists.

We are members of the Alberta Crop Improvement Association and are prepared to make better Seed available to farmers at actual cost.

Mr. and Mrs. Akira Matsui pictured above in their home just prior to their departure for Ottawa, Canada, where Mr. Matsui has just been appointed Third Secretary of Legation. The young diplomat, who is the heir of Baron Koshiro Matsui, one-time Foreign Minister and at present member of the Privy Council, is an accomplished linguist, speaking French and English fluently, as well as being a sportsman. His wife is the daughter of Kunizo Hara, President of the Patriotic Life Insurance Company (Aikoku Seimei) and director of numerous other firms. The couple sailed from Japan on April 13 for Canada by way of the United States.

War Savings Certificates Soon

Plans for the sale of War Savings Certificates and the widespread acceptance of individual thrift programs as a war effort are now being organized. Hon. J. L. Ralston, Minister of Finance, has announced the appointment of W. H. Somerville, of Waterloo, Ont., and de Gaspé Beaubien, of Montreal, as national chairmen of the National War Savings Committee.

John Burns, of Calgary, has been appointed Alberta chairman of the War Savings Committee. Provincial committees, to be announced in the near future, will be representative of agriculture, labour, industry, finance, education and the professions.

War Savings Certificates, to be sold in multiples of \$5 are designed to give everyone, including school children, an opportunity to share in the war effort in Canada's fight for freedom. In addition to making a very effective contribution to the mobilization of Canadian resources, War Savings Certificates provide an opportunity by which every Canadian, old or young, may build up a reserve of purchasing power.

Mr. Burns, Chairman of the Alberta Committee, was born at Kirkfield, Ontario, and has been a resident of Alberta since September, 1901. He is President and Chairman of Burns Bros. Limited, Palm

Dairies and Consolidated Fruit Co. Limited of Calgary; a Director of the Royal Bank of Canada, Dominion Bridge Company Ltd., Canadian Bakeries Ltd., Metals Ltd., and a number of other companies. In addition to his interest as a trustee in Alberta schools, Mr. Burns is a Director of the Calgary Board of Trade, Canadian Manufacturers' Association and other national organizations.

ing and soft soldering and acetylene welding.

Wireless and electrical mechanics should have sufficient knowledge of elementary electricity, magnetism and radio principles to manipulate wireless apparatus in common use. They must be able to send and receive Morse at the rate of 18 words per minute. "Ham" operators, as amateur radio enthusiasts are called, may find the R.C.A.F. an excellent outlet for their energies and ability.

Photography is of vital importance to the Air Force in modern warfare. To qualify as a photographer the recruit should be familiar with the history and characteristics of lenses and filters, have had experience in the use of different types of cameras and printing equipment, and understand the handling and chemistry of film development.

The airmen engaged in these trades and occupations within the Air Force make an important contribution to the training of pilots, air gunners and observers.

Canadian Red Cross Alberta Division

Busy as Alberta Red Cross workers are, providing comforts and surgical supplies for Canada's troops in the war, they have their thought for the civilian victims of Hitlerism in European countries overrun by German hordes. These include Polish, Finnish and other European refugees located in various countries.

According to Divisional records to date there have been shipped from Alberta approximately 3,000 articles of miscellaneous clothing for distribution among these refugees. Branches participating in this endeavor are:

Edmonton	Waterton Park
Calgary	Big Valley
Medicine Hat	Lacombe
Lethbridge	Lundbreck

Dead

Lolita Tetrazzini
Mme. Lolita Tetrazzini, 65, Italian soprano who thrilled opera lovers the world over, died in the hospital after a long illness. For several days Mme. Tetrazzini had been unable to take nourishment other than occasional sips of champagne. Only a nurse was at her bedside when she died.

Household Hints

At this time of year when vegetables such as cabbage, carrots, turnips, onions, beets and potatoes have been in storage, they often need a little fussing up to make them more attractive. Far to often on the best part of vegetables is drained away, and the best part means flavor as well as minerals necessary to a healthful diet. It is advisable to cook vegetables with very little water or by such methods as baking, steaming or scalloping. All food value is then retained.

The following recipes are some of the ways in which to serve these vegetables.

Hot Cabbage Salad

- 4 cups shredded cabbage
- 1 cup boiling water
- 1 teaspoon salt
- 4 tablespoons butter
- 4 tablespoons vinegar
- 2 tablespoons flour

Cook cabbage in a closely covered saucepan in boiling salted water 6 minutes. Drain. In another pan melt butter, add flour and stir until smooth. Add hot water from cooked cabbage, then vinegar. Cook 3 minutes. Add cabbage.

Onion Upside Down Cake

(This is particularly good with roast beef)

- 3 cups onions
 - 2 cups flour
 - 1 egg
 - 1-2 cup milk
 - 2 1/2 teaspoons baking powder
 - 4 tablespoons shortening
- Peel and slice onions in a greased baking pan. Dot with 2 tablespoons shortening. Sift flour and baking powder. Beat egg. Add milk and 2 tablespoons shortening, melted. Stir into flour. Pour over onions and bake.

Carrot Loaf

- 1-4 cups grated carrots
- 1 egg
- 1-2 cup milk

may plays. Ona Munson will appear in these stage plays as Robinson's leading lady. Robinson's first vehicle was "The Criminal Code", one of the most thrilling footlight dramas ever written. Having done a good job at cleaning up Big Town of racketeers, Robinson believes the new theatre series will provide his legion of listeners with a greater variety of entertainment. William N. Robson will continue as producer and Leith Stevens will conduct the orchestra.

KRAFT MUSIC HALL
Bing Crosby's singing discovery, Carole MacFarlane, who used to live next door to Crosby when she was a child, came close to what she called "disaster" during her world debut in Kraft Music Hall. Carole went through her first song with perfect calmness. When the song ended, she was to chat for a moment or two with Crosby. She sang with ease, but when time came for her interview she couldn't remember what she was to say, and could n't find the place in her script. Bing solved the problem by ad libbing until she could start with her speech "However", said Carole, "I was very nervous during my second song." Bing Crosby is heard over CFAC every Thursday from 7:00 to 8:00 p.m.

The visitor to the village was talking to the oldest inhabitant. "May I ask how old you are?" he said to the aged one. "I be a hundred." "Really. Well, do you suppose you'll see another hundred?" "Well, I be stronger now than when I started on the first hundred."

INDISSOLUBLE UNION

"The British Empire and the French Republic" are now joined together in indissoluble union so that their high purposes may be accomplished and immense progress has been made in almost every direction in strengthening their forces, in improving their defences and adapting their whole economy and way of life to the service of the common cause."
—The First Lord of the Admiralty

The Board of Trustees of the Crossfield S. C. No. 752 have posted public notices re the borrowing of \$4000.00 to erect additional School buildings.
